## SUMMATION

---

I'm a graduate of computer science at the University of Adam Mickiewicz in Poznań - obtained the title of enginner. I'm looking for a job/intership where I could use the programming languages I know, such as HTML, CSS3, JavaScript and I could develop further in this direction. In the future I want to learn React.js or Vue.js. Thanks to employment in your company, I can develop faster and learn about new trends in IT. My biggest advantage is punctuality, diligence and willingness to develop.
